

Laptops now available for use within the library

Thanks to a grant from Oregon Trust Management, the library now has laptop computers that can be checked out for use within the library. Computers check out for two hours and cannot be renewed. You must be at least 18 years of age and have a valid driver's license or Oregon ID with you at the time of checkout. Wireless printing is available via HP ePrint from many wireless devices. Color printing is also available from most library computers. The charge for black and white prints is .10 per page. Color printing is \$1.00 per page.
