

## Heritage Museum offers Information Kiosk at Library

Now at the Independence Public Library! You can view many of the Heritage Museums artifacts at a special computer kiosk that is now in place at the library. The kiosk includes photos, oral histories and more. Come take a look.

This a great introduction to Independence history, and a great place to start when doing local history research. Placement of the Museum Kiosk at the library was made possible by a grant from the Polk County Cultural Coalition.
