

North Riverfront Park

Independence's newest park is still under development. After developing a concept plan for the property in 2008, the City entered into a partnership with the property owners to develop approximately 50 acres of ballfields and build a new boat ramp on the site.

After a lengthy permitting process, the City secured grants to fund construction of the boat ramp, which is scheduled for completion in October 2012. The City also worked with the Oregon National Guard for three summers to grade the site and build a large retaining wall. Two of the soccer fields will be seeded in Fall 2012 and are expected to be ready to play in summer 2013. The remainder of the soccer and baseball fields will be finished incrementally as grant funding is secured.

North Riverfront Park is also the northern limit of the [Willamette River Trail](#), a soft-surface walking/jogging path that starts in Riverview Park and follows the Willamette River north to North Riverfront Park. The looped trail is approximately 5 kilometers round trip.
