

Independence Workforce Data

While Independence retains the feel and minimal bureaucracy of a rural community, we have an available workforce comparable to any urban area in the state outside of Portland.

Over 350,000 people live within a 30 minute drive of Independence filling over 214,000 jobs. This sizeable, skilled workforce coupled with our high-speed fiber telecommunications infrastructure and proximity to Interstate 5 make Independence an ideal location for a wide variety of employers.

All workforce information listed below was provided by WorkSource Oregon - the Oregon Employment Department.
